RULING ON ENTITLEMENT¹

On November 9, 2020, Virginia Aldridge filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a Table injury – Shoulder Injury Related to Vaccine Administration (“SIRVA”) – as a result of receiving an influenza (“flu”) vaccine on October 12, 2018. Petition at 1. Petitioner further alleges the vaccine was administered within the United States, and that there has been no prior award or settlement of a civil action on her behalf as a result of her injury. Petition at ¶¶ 5-6. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On May 15, 2023, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent indicates that

Medical personnel at the Division of Injury Compensation Programs, Department of Health and Human Services ("DICP") have reviewed the petition and medical records filed in this case. It is respondent's position that petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation ("QAI"). That is, petitioner had no relevant history of pain, inflammation, or dysfunction in her left shoulder; her pain and reduced range of motion occurred within 48 hours of receipt of an intramuscular vaccination; her symptoms were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality was identified to explain her symptoms

Id. at 5 (citing 42 C.F.R. § 100.3(a), (c)(10). *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
